

Supporting Workers' Comp Patients

Data Powered Recovery

Recupe helps injured workers follow their care program at home, including the home exercises prescribed by the PT between clinic visits, and monitors their recovery progress.

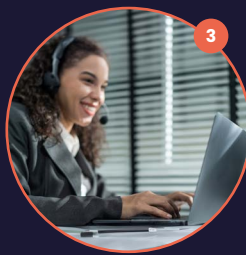

The Recupe program includes a patient app, easy-to-wear sensor, empathetic coach, and insightful bio-psycho-social analytics. Recupe is approved and paid for by the payer and is delivered in English and Spanish.

Recupe coach tracks recovery and engages care team

Why Work with Recupe:

Data-Driven Insights: We partner with you and provide actionable insights on patient recovery at home.

Dedicated Coaches: Leverage psycho-social data to engage patients daily to follow their care plans between clinic visits.

Enhanced Patient Engagement: Program empowers patient recovery and drives accountability.

Effective Communication: Our dedicated coaches ease anxiety and ensure compliance while encouraging patients to attend their PT appointments.
